

Muhammad Ahsan

Data Analyst | Power BI, Excel, Python

Pakistan, Gujrat | contact.mahsanbutt724@gmail.com | Phone no. 0304-4275710\

SUMMARY

Aspiring Data Analyst with strong skills in Excel and Power BI for data cleaning, visualization, and basic reporting. Possesses foundational knowledge of SQL and Python, with an eagerness to further develop hands-on experience in data analysis. Brings a background in web development (HTML, CSS, JavaScript), adding versatility to technical problem-solving. Highly motivated to learn, grow, and apply analytical skills to real-world data projects in an internship setting.

TECHNICAL SKILLS

Languages: Python, SQL, Java Script, HTML, CSS,

Tools: Excel (DataAnalysis,Formulas,Charts), Power BI (Dashboards & Visualization)

Databases: PostgreSQL

EDUCATION

BS Software Engineering

Oct 2022 – May 2026

Gujrat Institute of Management Sciences

- Relevant coursework in Data Structures, Algorithms, and Software Project Management

PROJECTS

COVID-19 Data Analysis Dashboard | PostgreSQL & Power BI

- Performed data cleaning and exploratory data analysis on COVID-19 datasets using PostgreSQL.
- Analyzed infection rates, vaccination trends, and key health metrics to uncover meaningful insights.
- Built an interactive Power BI dashboard with visual reports to support data-driven analysis and trend monitoring.

Mobile Sales Analysis Dashboard | Power BI

- Developed a comprehensive Power BI dashboard analyzing a mobile sales data.
- Built interactive charts and visuals to track sales performance and regional trends.
- Focused on delivering actionable insights for stakeholders through data visualization.

Nashville Housing Data Cleaning & Dashboard | PostgreSQL & Power BI

- Cleaned and transformed Nashville housing data using PostgreSQL to improve data quality and consistency.
- Handled missing values, standardized formats, and optimized datasets for analysis.
- Developed a Power BI dashboard to visualize housing market trends and property insights effectively.
